

Invitation to 2nd Annual Practice Enterprises Intensive Trading

January 17 to 19, 2018

KT Human Resources Development Center, Daejeon, South Korea

2nd Annual PE Intensive Trading

From Wednesday 17th January to Friday 19th January, 2018 Kyungpook National University from South Korea organizes together with the Korean Central Office KoreaPen an intensive training for about 35 students. The aim of this training is to acquire competences in starting up and running an own business.

Supported by EUROPEN-PEN International this training aims to help Korean students acquire entrepreneurship and global competences required in starting up and running an own business.

To validate their business ideas the students will trade on two days with existing practice enterprises in the world wide network. Therefore the Korean students will be divided in 7 groups. Each group acts out of an own practice enterprise.

Business language is English as far as international trade is concerned.

The main source for interaction will be Email. If both practice enterprises agree also Skype and /or telephone meetings can be organized. A detailed contact list of all partners will be provided prior to the event.

For this project we are looking for partner practice enterprises interested in taking part.

The requirement for the partner practice enterprises are in first place:

- Readiness to quick reaction on incoming mails (offers, invoices, negotiation, etc.)
- Taking own initiative to trade with all other practice enterprises involved in this project during the two days.

The participating partner practice enterprises can not only trade with the 7 Korean practice enterprises but also with the other partner practice enterprises taking part in this project.

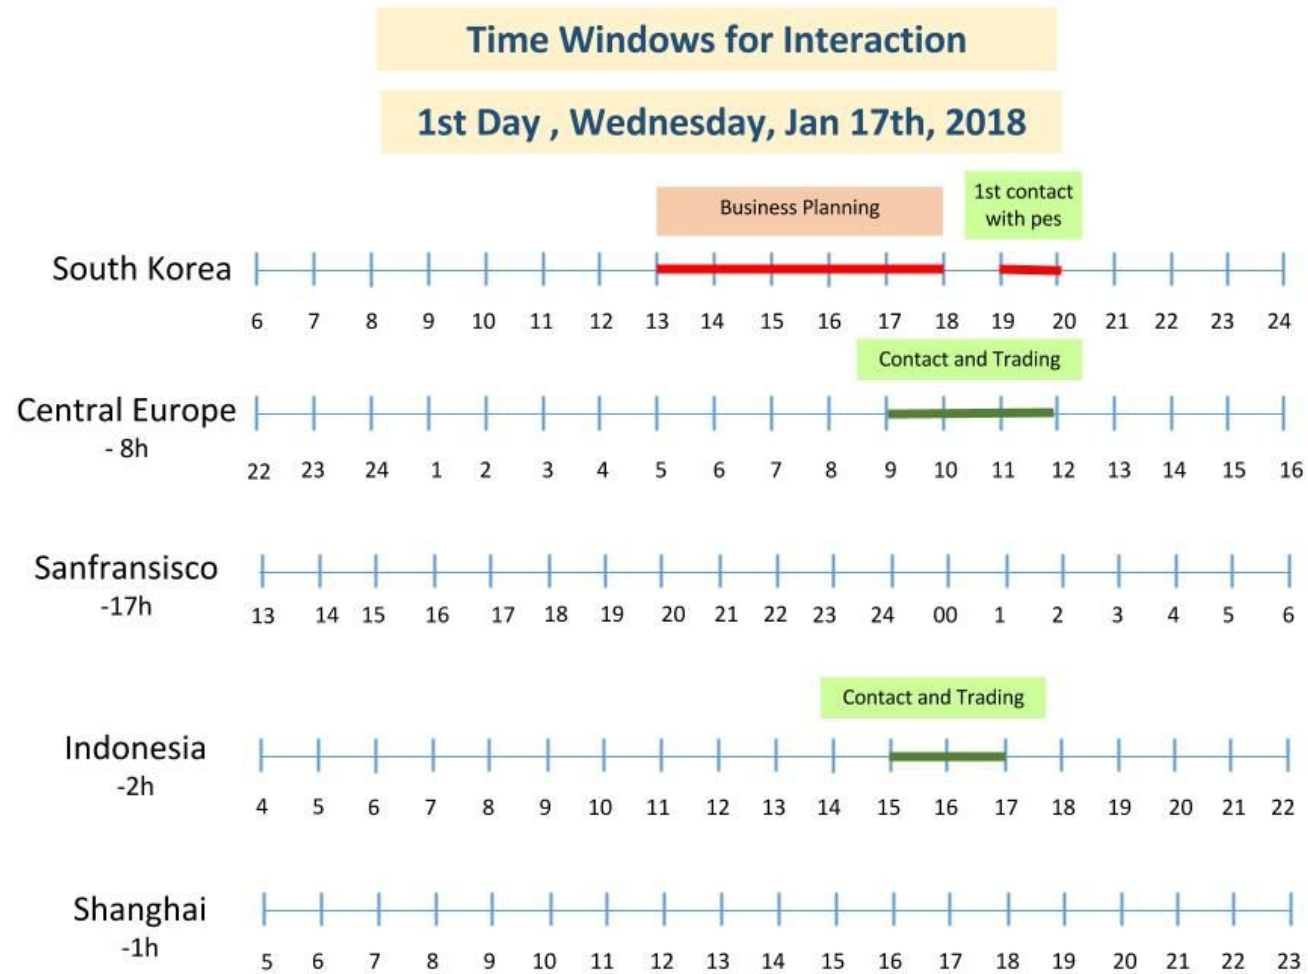

For this international project time differences between continents have to be taken into account.

Due to the time delay of 8 hours between South Korea and Europe trading time is limited. Therefore requests from South Korea should be handled with priority.
